Progress Report Due 10012016 - FINAL.pdf

Mr. Justice,

Attached for your review is the Eisenbarth Well Pad Site progress report from August 16, 2016 through September 15, 2016. I apologize for this report being late. The late submittal was due to the report date being over a weekend and coinciding with an internal organizational change. As usual, please do not hesitate to call if you have any questions.

I also want to notify you that I will be soon leaving Statoil. As such, I will be submitting a formal request to change the Statoil Project Coordinator for this activity in the near future.
